

## P - Bond

**Addcrete P- Bond** is a waterborne resin dispersion type adhesive / binder designed for multiple applications, ranging from add-mixtures with concrete and renders to enhance adhesion and improve internal strength and flexibility, to concrete floor sealing to reduce dusting and oil staining, and as a general purpose adhesive for timber, hardboard, paper, etc.

**Addcrete P - Bond** can be used as an adhesive before cement or plaster rendering, or can be added to the mix. It gives a strong bond without the need for backing and when added to the mix it increases the tensile strength, improves impact resistance and provides a dust free surface.

**Addcrete P - Bond** is not suitable for uses outlined above if the work is subjected to constant wetting or moisture. **Addcrete** recommends the use of **Addcrete A - Bond** which is an **acrylic bonding agent** in these situations.

### Advantages

- Forms a strong bond with cement or plaster.
- Can be used both in the mix and on its own.
- Used to adhere new surfaces to old.
- Used in mortars, renders, plaster and concrete.
- Increases tensile strength and flexibility.
- Reduces dust on work surfaces.
- Available in 20ltr 5ltr 2.5ltr and 1ltr containers.

**Method Of Application:** For bonding new surfaces to old, dilute 50 parts product to 50 parts water. Apply with a brush or spray and allow partly to dry before applying render. If surface is partially porous, dilute with less water and apply a second coat.

### Dosage :

<b>Re-Topping</b>	1 part product to 6 parts water usually used in cement mix.
<b>Repairing</b>	1 part product to 3 parts water. Add dry cement or plaster and stir into paste. Use a spatula to smooth into cracks.
<b>Sealing</b>	Before tiling etc, 50 parts product to 50 parts water. Apply and allow to dry.

**Coverage :** Undiluted coverage rate approx, 6-8 square meters per litre, depending on surface texture and porosity.

### **PRODUCT LIABILITY:**

Prestige Concreting Additives P/L will not accept responsibility howsoever it may arise and whether consequential or otherwise in connection with supply or use of these goods other than the responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by the applicable Statutes. To the extent allowed by such Statutes, the liability of Prestige Concreting Additives P/L is limited to the cost of the product purchased.
