

## Release

**Addcrete Release** is a formulated coloured powder products used to assist in the removal of textured (slate) mats. **Addcrete Release** will help enhance pigment colour used in coloured concrete and provides a secondary highlight colour if required.

### **Advantages**

- Allows for easy removal of textured mats
- Full highlight colour achieved in coloured concrete.
- Available in 8kg containers.

**Preparation :** Protect all adjoining surfaces to prevent staining

**Coverage :** 80sqm per 8kg.

### **Directions :**

- After **Addcrete Top Colour** has been applied, trowelled and the surface of the concrete is able to stand steady pressure, apply **Addcrete Release**.
- Addcrete Release should be applied evenly over the concrete surface.
- Once stamping has been completed concrete should be left for 3 days minimum before the cleanup process begins.
- Sweep off Addcrete Release with a broom and hose down. Using a pressure washer remove Addcrete Release until desired effect is achieved.
- Allow surface to completely dry before sealing with Addcrete Clear Sealer. This will enhance the colour and protect the surface from staining and sun fade.

**WARNING :** Avoid prolonged skin contact as it may cause irritation. It is advised to wear a dust mask/mist respirator, safety glasses with side shields, suitable gloves and clothing. Wash skin and flush eyes with copious amounts of fluids if affected. For further information refer to MSDS.

**Shelf Life :** Store in a cool place, N/A.
